

A health study for oil spill clean-up workers and volunteers

John Smith
123 Main Street
New Orleans, LA 27783

«PID»
«BARCODE»
[Month Day, Year]

Dear Participant:

Thank you for your ongoing participation in the GuLF STUDY! The information you have already provided has been very helpful. I am writing to ask you to take the next step in the study by completing a clinical research exam with our study partners at [insert Clinic Site name].

The exam includes comprehensive tests of lung and nervous system function and screening for diabetes and cholesterol. You will receive results of these tests and health care referrals for abnormal results if needed. By completing the exam, you will help us learn even more about any effects of the oil spill - **do it for your health, your community, and your future!**

During your visit, you'll be asked to:

- Provide blood, hair, toenail, urine, and possibly saliva samples
- Have your vital signs and body measurements taken
- Complete lung function tests
- Complete tests of nervous system function
- Complete a questionnaire about your health

You will receive a gift card for \$100 for completing the exam and will be reimbursed for your travel based on your distance from the clinic.

Please call the study center today at 1-855-NIH-GULF (1-855-644-4853) to schedule your visit. Our clinic is open on weekends and evenings. Our staff will schedule your appointment at a time that is convenient for you. We look forward to hearing from you soon!

Sincerely,

Dale P. Sandler, Ph.D.
GuLF STUDY Principal Investigator
National Institute of Environmental Health Sciences
